

# EcoWet™

## WETTING AGENT/ DEGREASER

### *TECHNICAL DATA SHEET*

#### **DESCRIPTION:**

**EcoWet™** is a slow drying liquid wetting agent/ degreaser that retains water on the screen mesh, which allows for easy application of capillary films. It can also be used to eliminate screen shadows on a cleaned screen. (For Example: a long print run “uses” or flattens the mesh.)

#### **ADVANTAGES:**

- ❖ Biodegradable
- ❖ Water soluble
- ❖ Fast and efficient
- ❖ Safe for user
- ❖ Low cost per usage
- ❖ No odor

#### **APPLICATION:**

1. Brush both sides of screen with **EcoWet™**
2. Rinse **IMMEDIATELY** with water from the TOP towards the BOTTOM.
